

The OLED Crowdfunding Arena

OLED-Info has teamed up with Seedrs to offer OLED companies an innovative and effective way to raise capital and grow their businesses. Crowdfunding can work as an alternative to, or in tandem with, angel or venture financing, allowing businesses to obtain a diverse range of value-added capital.

Results

Seedrs had a market dominating 74% campaign success rate in 2017

How Does it Work?

Interested companies should approach OLED-Info (at info@oled-info.com) for more information on the next steps.

Crowdfunding is open to businesses of all stages, but usually early-stage companies with a unique and easy-to-understand product, technology or business model are more suitable.

The OLED Crowdfunding Arena welcomes companies from all over the world, although it is mostly suitable for EU-based companies. Seedrs accepts investors from the EU, EEA and many other countries, including Israel, Switzerland, India, Brazil, Hong Kong, Russia, Singapore and Malaysia, as well as institutional investors incorporated in all these countries.

About Seedrs and OLED-Info

Seedrs is Europe's most active equity crowdfunding platform, with over 600 funded deals and more than £350M invested into campaigns on the platform. It allows all types of investors to invest as little or as much as they like and ambitious businesses in all sectors to raise capital and build community through its efficient online process.

OLED-Info, launched in 2004, is the world's leading OLED knowledge hub. Enjoying a wide-reach into the OLED and organic electronics industry (with over 100,000 monthly readers and 18,000+ subscribers) OLED-Info provides a multitude of services to the OLED industry based on extensive and up-to-date knowledge hub and close ties with industry leaders.

OLED-Info is part of the Metalgrass emerging-technology knowledge hubs network, which adds a wide reach into more investors interested in emerging technologies, from a wide range of industries (including e-paper displays, graphene, perovskites, next-gen memories and more).
