

OLED, sharpness, lightweight, poetry and ease of use.

“Like a flower Helix opens its corolla of pixels throughout the day. It blossoms as the sunlight fades. Like a bird Helix hovering in the air at sunset folds her wings and shines like the moon”, Camille Paillard, Helix designer.

In order to enhance the OLED knowledge on the market, Blackbody and Camille Paillard have designed Helix to be a useful, poetic but affordable OLED luminaire. Helix is available through internet sales at the price of 1440,00€ (without VAT).

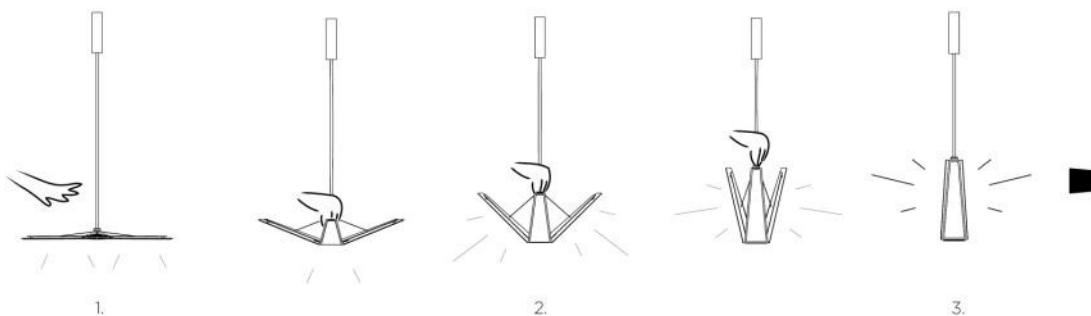

Following the Blackbody vision of “tailored OLED luminaires”, we propose unique compositions of Helix like “Envol”. We study special customer demands for new compositions or arrangements of Helix.

Send email orders and inquiries at info@blackbody-oled.com.
